

# KOMINO

The Komino fairleads (Karver/ Domino) are raised to guide the rope better (straight or sideways). They are made of aluminum alloy and anodized for better protection.

## FAIRLEADS

### Organize your deck layout

The Komino fairleads simply assemble together.

KOMINO RANGE	REFERENCE	WORKING LOAD AT 45° (kg)	FASTENER SPACING** (mm)	WEIGHT (g)	WIDTH (mm)	MAX LINE DIAMETER (mm)	SCREWS
Simple	PL843946	250	42	33	20	12	M6
Inter	PL843945	250	42	38	20	12	M6

# KJ<sup>3</sup>

New jaws design

## CAM CLEAT

### HIGH PERFORMANCE

High strength and reliability.

KJ RANGE	KJ2 NEW	KJ3
DESIGN	The closed aluminum structure strengthens and protects the cam cleat from impacts	
PERFORMANCE	Nylon/Fibers base Self-lubricating bearing Good holding capacity on small diameter ropes* Very good weight / strength ratio	Aluminum base HR ball bearings Minimum friction Excellent holding capacity on small diameter ropes*
WORKING LOAD/BREAKING LOAD WITHOUT FAIRLEAD (Kg)	150	250
WORKING LOAD/BREAKING LOAD WITH FAIRLEAD (Kg)	200	310
WEIGHT (g)	45	69
DIMENSIONS (mm) / FASTENER SPACING (mm)	62,5 X 26,5 / 38	62,5 X 26,5 / 38
CONTROL LINE MAX. (mm)	10	10
REFERENCE	PF840050	PF840010
REFERENCE FAIRLEAD**	SF842531	SF842531
